I am currently a community college student with a deep interest in Statistics, Quantum Information Science, and Applied Mathematics. As there are very few research experiences in community college, I am eager to participate in hands-on research programs related to the field I wish to pursue.

---

### Skills

- Introductory Java
- Knowledge of statistics fundamentals (Standard deviations, hypothesis testing, type 1 & 2 errors, regression analysis)
- Proficiency in Microsoft Excel
- Working knowledge of Virtualbox, UTM, and other type 2 hypervisors
- Readiness to work with others in an interdisciplinary manner

---

### Education

---

#### San Diego Miramar College / A.A. - Mathematics Studies

August 2021 - Present, San Diego

- 3.96 GPA
- Enrolling in courses surrounding mathematics, statistics, and computer programming to transfer to a public research university in California
- Previously enrolled in *Independent Study in Astronomy* course (Fall 2023), researching multi-star systems
- Full IGETC certification

---

### Extracurriculars

- Member of Phi Theta Kappa (PTK), the largest international community college honors society, since March of 2023.
- Student member of Space and Satellite Professionals International since November of 2023
- NASA Community College Aerospace Scholars (NCAS) Alum.
- Current Enrollment in NASA L'SPACE Academy
- Member of San Diego Miramar College's MESA Program

---

### Experience

---

#### Amazon / Fulfillment Associate

Oct 2021 - Jan 2022, San Diego
